Department of History

Undergraduate Scholarly Activities Grant Application

Grant Guidelines

Each semester, the Department of History offers the Undergraduate Scholarly Activities Grant. These competitive grants, ranging from \$250-\$500, are designed to support undergraduate students who are pursuing scholarly activities related to the field of historical research, including but not limited to conducting off-campus primary source research for a history class or history thesis and presenting original historical research at a scholarly conference. Students who are awarded an USA Grant are required to submit a one-page report on their use of the grant money within one-month of expending the funds. The Department of History Undergraduate Committee accepts and reviews applications on an ongoing basis. For more information, please contact the current Director of Undergraduate Studies.
